

NAME ART PROJECT

You will draw your name using things that you like or that describe you.

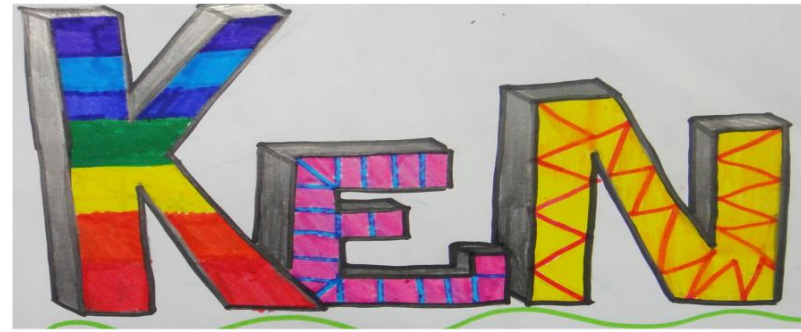

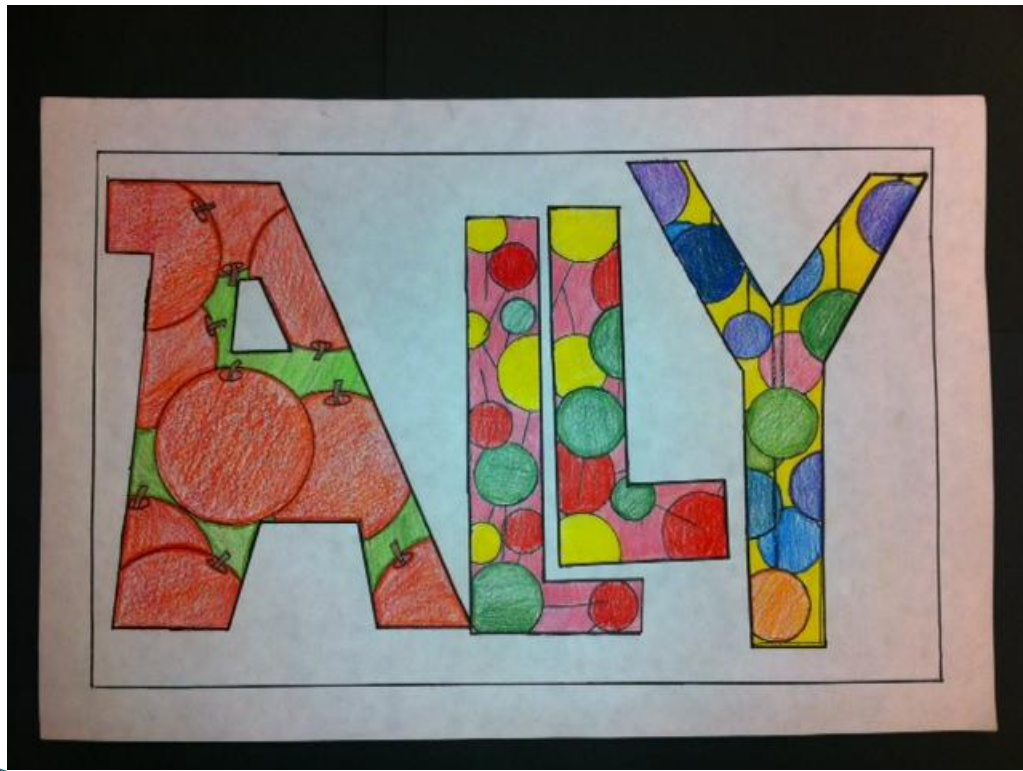

Use plain white paper if at all possible. If you must use lined paper you will not lose points.

You may draw block letters and then put objects on them (see “O” below) or you may make the entire letter out of an object or objects (see “Y” below)

You are NOT to just draw designs inside the letter shapes like these examples.

You will first draw a rough sketch.
Take your time when you are drawing your good final letters. Use reference images to help you draw your items as needed. Do Google searches for “clip art” or “cartoon” of your items for reference images.

You can pick a theme (like Star Wars) and make all letters fit the theme.

Here is another example of all one theme.

Or each letter can be of a different theme.

Use bright colors to color your name.
You may use any type of art material to color your name such as markers or colored pencils.

If you don't have colored art materials you may shade everything with a pencil instead using many variations of gray, white, & black with your pencil.

ASSESSMENTS

- ▶ You will be emailing me a list of the objects you plan to use for each letter
 - ▶ You will be emailing me a photo of the rough sketch of your design.
 - ▶ You will be emailing me a photo of your finished drawing before you start coloring.
 - ▶ You will be uploading your finished artwork to Artsonia along with a title and artist statement.
-
